Experience

LUMEN & FORGE

Full Stack Developer and Automation Developer

Las Vegas, Nevada, 89103
March 23, 2026 - July 7, 2026

- Developed the **Bid Vault System**, a full-stack web application using **React**, **TypeScript**, and **Supabase**, delivering secure document management, project workflows, and a scalable cloud-based architecture for business operations.
- Designed and implemented **API integrations** with **Google Cloud Platform** (GCP) services and **Make** (formerly Integromat) to automate business workflows, synchronize data across multiple platforms, and streamline operational processes.
- Built and customized **CRM** and business automation solutions using **Airtable** and **GoHighLevel**, creating automated pipelines, database-driven workflows, and third-party integrations that improved project and client management.
- Developed and integrated **AI-powered voice and chat agents** into company systems using modern LLM technologies, enabling conversational automation, intelligent customer support, and workflow assistance through both text and voice interfaces.

SPLIT SECONDS SOFTWARE SERVICES

Full Stack Developer / AI Developer

Casisang, Malaybalay, Bukidnon, Philippines
November 2024 - March 2026

- Developed an **Advanced Path Analysis System** on a web platform using **Laravel**, **Vue.js**, **MongoDB**, and **Python**, enabling efficient data processing, visualization, and analytical insights for user decision-making.
- Built **AI-powered chatbot systems** using **Prompt Engineering**, **Prism PHP**, **API Embedded Models (Gemini and OpenAI)** and **Laravel/Vue**, improving automated user interaction, response accuracy, and customer support efficiency.
- Designed and implemented the **full-stack architecture** (front-end and back-end) for a **Web-Based Survey Development Application**, allowing dynamic survey creation, data collection, and reporting.
- Performed **quality assurance testing and debugging**, ensuring system stability, performance, and a seamless user experience before deployment.
- Collaborated with development teams using **GitHub for version control**, managing pull requests, code reviews, and feature integration in an agile workflow.
- **Implemented containerized development environments** using **Docker**, enabling consistent deployment, easier dependency management, and improved collaboration across development and testing environments.

LGU QUEZON

Junior Web Developer Intern

Quezon, Bukidnon, Philippines
February 2024– May 2024

- Created and designed a web system for the Secretariat of the Mayor’s Municipal Office namely the *Document Management Tracking System* (DTMS) and coordinated with the Manager of the IT department using the Laravel framework.
- Analyzed the Secretariat’s problem in sending and managing important confidential documents.
- Learned how to persevere enough to finish the system enough despite of many error codes received.

Leadership and Activities

LOCAL GOVERNMENT UNIT - QUEZON
SANGGUNIAN KABATAAN Chairperson

Quezon, Bukidnon, Philippines
October 2023–Present

Ivant Fred T. Ondoy

Cebole, Quezon, Bukidnon • ivantondoy199@gmail.com • +639926984808 • linkedin.com/in/ivantfredondoy/

- Leading and coordinating youth programs and initiatives within the local government unit and in Barangay Cebole to promote community development.
- Managing and overseeing youth activities, including sports, education, and cultural projects, in alignment with the LGU's goals.
